

BOPC Received

3/18/2021

PEC Chairman's Report to the BOPC
March 25, 2021

The Pilot Evaluation Committee met on March 17. The members present were Captains Aune, Robinson, Slack, Wehr and me. At the request of the committee, Captain Garfinkle initially joined the meeting so we could discuss an overview of this past month.

Agenda item A:

The eight active trainees are Adams, Barnum, Deisher, Murney, Olmsted, Sappington, Snapp and Weber. Their overall range of time in the program spans from 10 days to 18 months. Deisher remains in Evaluation Stage and is handling as much as possible along with the occasional observation trip to watch a licensed pilot work. Adams is handling and waiting for the Coast Guard to issue him the full unlimited SF Bay pilotage endorsement on his federal license. Murney and Weber are finalizing trips to Stockton, testing and handling. Olmsted is acquiring route trips, preparing to test and is handling in areas where he meets the present requirements to do so. Barnum, Sappington and Snapp started training on March 15th with an orientation. They are familiarizing themselves with the program while also only observing aboard vessels for their first month.

In closed session, all trainees were individually interviewed and counseled on their progress in the training program. All are meeting the recommended benchmarks and are progressing at their own rates.

The next PEC meeting is scheduled for April 14, 2021 at 0730 in this office.

Agenda items B & C:

No action on either item at this time.

Respectfully submitted, Captain Steve Teague
