Subject: Legislative History 2002 and later

EXTERNAL EMAIL: Links/attachments may not be safe.

As a start, this is what I have as far the bill history

2002: SB 1353 (Perata)
2011: AB 907 (Ma)
2016: SB 1312 (Wieckowski), AB 1432 (Bonta)
2017: AB 251 (Bonta)
2020: AB 1372 (Bonta)
2021: AB 807 (Grayson)

EXTERNAL EMAIL: Links/attachments may not be safe.

Thanks for starting the list Anne –

Here are several more that should be included in the history:

2004: SB 1303 (Torlakson) – Automatic CPI rate adjuster (failed)
2005: AB 852 (Leno) – Pilot Boat Surcharge Major Modification (passed, SFBP and PMSA compromise)
2006: SFBP-PMSA Rate Agreement (attached)
2009: SB 300 (Yee) -- Deletion of Rate Adjuster, 1st Nav Tech surcharge (passed, SFBP and PMSA compromise)
2010: AB 1888 (Ma) – Minimum Charges and exemptions (passed, SFBP and PMSA compromise)
2011: AB 1025 (Skinner) -- Inland pilot cleanup & new Exam Fee (passed, SFBP and PMSA compromise)
2012: AB 2287 (Swanson) -- 2nd Pilot 50% surcharge (failed)
2015: AB 1432 (Bonta) – this was on Anne's list as 2016, but there were two different versions so should be on both 2015 and 2016 to reflect both. AB 1432 in 2015 was the rate recommendation bill (failed to get a vote on the Senate Floor), in 2016 it was amended to be the 2nd Nav Tech surcharge (passed, SFBP and PMSA compromise) – see PMSA AB 1432 signature request letter in 2016 attached, which also references the other bill correctly on Anne's list for 2016, SB 1312 (wieckowski)
2018: I have AB 251 (Bonta) as a 2018 bill? Believe it was introduced in 2017, but was a gut and amend for a rate bill? We can confirm later.
2018: AB 3049 (Grayson) – Pilot Rate Reform (failed)
2018: AB 3181 (Bonta) – Pilot Rate Reform (failed)

Allen, the best place to see the language for all of these bills is the leginfo website.

<https://leginfo.legislature.ca.gov/faces/billSearchClient.xhtml>

I have a bunch of bill data, letters, etc. on these, and I'm sure Anne does too, and we can talk about what you think would be helpful and what wouldn't be helpful.

Thanks,
Mike
