

INVESTIGATION STATUS REPORT

EVENT

On May 21, 2020, while moored at Oakland 37, the M/V THALASSA AVRA suffered some damage due to interaction with passing vessels. The passing vessels were the M/V HYUNDAI NEPTUNE and the M/V HANOVER EXPRESS. The damage consisted of parted lines which allowed the ship to contact a container crane. Both Board-licensees aboard the passing vessels underwent post-incident chemical testing.

TIMELINE

| Investigation Activities | Date | Days Elapsed |
|---|------------------|---------------------|
| Ship Event | 5/21/2020 | 0 |
| Incident Reported to Executive Director | 5/26/2020 | 5 |

| December 2021 Board Meeting | 12/9/2021 | 568 |
| January 2022 Board Meeting | 1/27/2022 | 617 |

STATUS

The Incident Review Committee (IRC) received the Freedom of Information Act requested information on this incident from the United States Coast Guard (FOIA request submitted on 5/28/20 and received on 5/16/21) which triggered a re-opening of the investigation of this event. The re-opening of the investigation also included a subpoena to Everport Terminal, where the damaged gantry crane was located. The response to the subpoena led to an amendment of the subpoena which was served on 9/2/21. The response to the amended subpoena was received on 9/14/21.

The IRC requests an extension to present this report at the Board meeting on January 27, 2022. The delay in presenting this report is due to staff workload. The IRC has determined that there is no risk to the public due to a delay in presenting this report.

IRC COMMITTEE MEMBERS

Jennifer Ferrera Schmid, Committee Chair (Public Board Member)
Allen Garfinkle, Executive Director
