Subject: SFBP Fatigue Risk Management System Document Annual Submission

Dear Commissioner Tynan,

As per CCR, Title 7, 218.1 (j), SFBP is submitting our FRMS for annual review and reapproval.

The SFBP Fatigue Committee met on May 5th to review the FRMS and associated fatigue monitoring data. No changes to the FRMS are proposed at this time. Generally, the Committee has determined that the FRMS is functioning as intended and SFBP will continue to monitor the fatigue data to ensure appropriate fatigue mitigation measures are in place.

One deficiency was noted: signs on the station boats "notifying that pilots are resting and designated quiet zones for sleep." Signs have been ordered and will be installed upon receipt.

Best regards,

John Carlier

Capt. John Carlier
Port Agent
