

MISSION STATEMENT

The Ad Hoc Committee on Pilot Diversity is convened to review and evaluate trainee candidate eligibility and testing requirements submitted by the San Francisco Bar Pilots to the BOPC in June 2021. The Committee will examine if these changes might serve to broaden the diversity of the candidate pool while still maintaining experience requirements necessary for success in the Pilot Trainee Training Program. Improvements identified will be submitted to the BOPC for consideration with the intent that current regulations will be amended to include agreed upon improvements.
